MEMORANDUM FOR: [REDACTED]

25X1A9a

SUBJECT : Allen Dulles Estate Records

25X1A9a 1. I called [REDACTED] on 13 May and asked if he would be available to conduct a review of the Allen Dulles estate records which are now in the custody of the Director of Security. I understand there are approximately eight file cases of papers. [REDACTED] said that he would be pleased to do so and advised that he knows the contents of these papers quite well with the exception of one section which pertains to Mr. Dulles' service as DCI. I advised that we would arrange a contract for [REDACTED] services and that [REDACTED] would be the focal point for the making of these arrangements. I further advised I would expect [REDACTED] to review all of the papers and divide up those that should be returned to the estate and those that should be retained in the Agency because of their classification or privileged nature.

25X1A9a

25X1A9a 2. It is requested that [REDACTED] arrange a contract for [REDACTED] services and that arrangements be made with Howard Osborn for the access and review of the Dulles papers. Mr. Osborn should establish a liaison officer to work with [REDACTED] and assure that he has the proper facilities to carry out the review of the Dulles papers. Additionally, this officer would serve as the contact point for resolving any questions on documents as to whether they should be retained within the Agency or returned to the Dulles estate. [REDACTED] is available for immediate service. I set no priority on the time for the completion of the project but indicated that it should be accomplished reasonably soon.
